(4)

A spider bite might not change you into a guy with strong power to save people. However, a small needle prick and a little of your time sure can. Yes, every time you donate blood, you will save up to three people's lives.

Donating blood is helpful not only for people in need but also for blood donors. People donate blood when they are fit enough to do so. In order to give blood, they have to stay healthy. So blood donors are always strong and well.

People can also get rid of 650 calories if they give blood. But don't get excited. You can never try to lose weight by giving blood because it is safe to do that once in two or three months.

It's wonderful to be able to save people's lives. And it will sure bring us great joy. Donating blood is an easy way to help people, and it only takes about 30 minutes to one hour. Come on! Let's save people.

📖 needle prick 針刺 donor 捐助者 get rid of 除去 calorie 卡路里 weight 體重 be able to 能夠
