(34-35) What Can A Robot Do?

As you may notice, robots are not just machines(機器). They help people with a lot of work and make our lives convenient and easy. Here are different kinds of robots.

Robot Teacher

Now robot teachers can only teach in elementary schools. They always have new ways of teaching. They can teach children math and language skills. Students can also use SMART pens on the robot teachers, so they have interaction with the machine, too. Even poor children can have a chance to learn technology with a robot teacher. Using a robot teacher costs (花費) less than a human teacher.

Robot Chef

The machine can make hamburgers without the help of humans. The robot chef itself can cook meat, cut vegetables, and put cheese on the meat. A robot chef can even make up to 2,000 hamburgers a day. The hamburgers robot chef make taste as good as—or even better than hand-made hamburgers.

Robot Doctor

The robot does surgery, and the surgeries they do are safer. Sick people often get well soon. A robot doctor is good at reading X-rays. They can find problems in the body sooner than human doctors. Scientists believe by 2035, robots may replace(取代) human doctors.
